## Core Technology & Expertise

MATSUMOTO provides customers with supporting from design development to completed products, including manufacturing and assembly.

MATSUMOTO has excellent expertise in high precision machining and specially-designed hard-to-process parts processing, as well as in making customized system proposals.

## Selling Points

Based on the experience in making marketing proposals for machine tool systems to many customers, MATSUMOTO has acquired confidence that its own innovative business style will keep up with the advancing technology.

Although yet to process parts for aircrafts, MATSUMOTO has been on lookout for challenges to the new fields of aircraft parts processing, now that it's been certified with JISQ9100.

## Prospects

Machining of parts for aircrafts and medical equipment

## Special Notes

MATSUMOTO supplies;

- Hydraulic chucks
- Hydraulic Cylinders (Actuators)
- Automatic Steady Rests
- Rotary Tables
- Ultra-precision Chucks

With a long history of supplying 4-axis and/or 5-axis rotary tables to OEMs, MATSUMOTO is Japan's No.1 supplier of rotary tables with complete waterproof (fully submersible) for EDM.

## Others

**MMK, or, Matsumoto Machine in & from Kanazawa, has the spirit of "Beyond The Borders":** MMK values the company culture of self-reliance and professionalism.

- Self reliance: every employee, not to mention the management, takes full responsibility for the job assigned.
- Professionalism: every employee seeks improvement in his/her skills and technique with pride as a professional.

MATSUMOTO desires to contribute to customers and society through its cutting-edge technology based on the employees' everlasting diligence and challenging spirit. This approach would allow each employee to be kept motivated as a business leader and to have the sense of fulfillment in life. Self-reliance and professionalism are the two mainstays of MATSUMOTO's company culture.
